The Romney Man of War, Capt. Granville, has likewise brought in there a Spanish Register Ship, which he had taken off Faro; she is call'd the St. Rose, and, by the Spaniards own Accounts, had on board 740,000 Pieces of Eight, and 200 Bales of Cochineal, besides a large Quantity of Drugs, and Hides, &c.

Extract of a Letter from on board his Majesty's Ship the Ipswich, Capt. Martin, at the Island of Flores, dated Feb 27.

We, together with his Majesty's Ship the Revenge, and Anne Fire ship, went the 19th Instant into Ajaccio, a Port in the Island of Corsica, where lay the St. Isidore, a Spanish Man of War of 70 Guns, which had been there near a Year, and summon'd the Captain of her to deliver her up, and upon his Refusal we gave her a Broad-side,

which they return'd; but the Spanish Commander perceiving he could not avoid being taken, set her on Fire, which about an Hour after blew up with 90 of her Men; the Remainder of the Crew (being about 200) got on shore. Two of the Men in the Revenge had their Arms shot off. Admiral Mathews has just now made a Signal for all his Ships to unmoor, being going on an Expedition.

It is said there is certain Advice, that there are no less than 18 Sail of Spanish Privateers now at Sea, from the Ports in Galicia, most of them Ships of Force, and well mann'd by the Assistance of their Neighbours, and our good Friends; with whom we are continually laying out immense Sums.

His Sardinian Majesty has declared the Count De La Mante, Commander in Chief of the Forces lately under the Orders of the Count d'Arpement.

Peregrine Fury, Esq; is appointed Secretary to Chelsea-Hospital, in the Room of Kingmill Eyre, Esquire, deceased.

The attacking the St. Isidore, a Spanish Man of War, in one of the Corsican Ports, by the Ipswich and Revenge, and her being burnt by the Spanish Captain, to prevent her falling into the Hands of the English is confirmed, in every particular, by all the Letters dated from the Fleet in Hieres Road.

His Majesty's Snow the Wolf, Capt. Lofting, has again taken two Spanish Privateers, which he had information were gone on a Cruise from Vigo to await the Arrival of some Vessels daily expected from England at Oporto, and has carried them into Lisbon.

April 5. They write from Geneva, of April 2, N. S. That Don Philip has ratified the Treaty of St. Julian, by which he is to withdraw his Troops twelve Miles from that City. Had the Spaniards observed the said Treaty when first they came, and abstained from ravaging poor Savoy,

Swiss, perhaps they would not meet with so many Obstacles to their Passage into Italy. They threaten to force it thro' Wallisland, but the People are resolved to oppose them, whatever be the Opinion or Design of their Governors. The Cantons of Berne and Fribourg have march'd 12,000 Men thither. The Officers of the Swiss Regiments in Don Philip's Army are forbid by their Cantons to act on the Side of Valais, on pain of losing their Estates, and being hang'd in Effigy. We hear that the Marquis de Courteilles, the French Ambassador in Switzerland, is going to demand Permission of the Dyet for the Swiss Troops, in the Service of that Crown, to cross the Rhine, in order to oppose them, in this Time of Need, to the British Auxiliaries; but in all Probability the Proposition will be rejected, as a Thing unprecedented, and contrary to the Capitulation.

They wrote from on board his Majesty's Ship the Rupert, Capt Ambrose, in Sofa-Bay, of the 7th of March, That on the 3d of the same Month the Rupert, Guerzney and Kingston Men of War, had attack'd Vineros, (in the Bay of Almeria, on the Coast of Granada, in the South Part of Spain,) knock'd down the Walls thereof, destroy'd the Spire and the Roof the great Church, and demolished most of the Houses, in short have done Damage to the amount of 50,000 Dollars; sunk and destroy'd Thirty Scurves, most of them laden for the Use of the Spanish Fleet at Toulon; and also burnt the Jesus Misericordia, a large Vessel, with Stores for the said Fleet. Bread Twenty-two Pounds for a shilling; Butter, three Pence per Pound; Beef and Mutton, three half Pence per Pound, and other Articles in proportion; Fish, in particular, has been so plenty, that great Quantities have been thrown into the River Liffy, after the Poor have been served at their own Prices.

April 9. *Extract of a Letter from on board out of his Majesty's Ship in Hieres Road, dated March 12.*

The Fleet continues extremely healthy in Hieres Bay, which we have experienced an excellent Road, to the great Concern of the Spanish Officers at Toulon, who have often flatter'd themselves with the Hopes of seeing the British Fleet ashore, through the boisterous Efforts of old JEus, which several Times assailed us with great Vehemence; but Thanks to Heaven we have now weather'd the Winter without the least bad Accident; and have scarce a Man amongst us, but would be glad to meet the Enemy, with their greatest Force, in deep Water. — Provence is a delightful Country, abounding with all the Comforts of Life, and we are supplied from thence at very easy Rates. I believe the Month of April will employ us in a Cruise off Marseilles, Toulon, &c. where part of the Fleet are continually station'd; and thro' the Vigilance of our Admiral nothing is suffer'd to pass without Examination — I am as happy as it's possible for one to be on the Salt Water, being with an Admiral whose Affability, Complaisance, and Good Nature deservedly render him the Esteem of all who are under him.

That they are taking such Measures at Cadiz, as if they were in great Danger of a Descent from the English.

April 12. There are Letters from Rome which inform us, that a certain Affair has very much embarrassed his Holiness. It seems a certain Italian Count at Bologna, who gave Intelligence to Count Traun of the Spaniards March, has been exceedingly ill used there by Four Persons in Disguise; for which the Hungarian Minister has demanded Satisfaction of the Pope in very high Terms.

It is certain, that the King of Prussia's Minister, on his Return from Netis, had several Conferences with her Hungarian Majesty's Council, in Relation to a new Plan for adjusting all the Differences between the Houses of Austria and Bavaria.

After a warm Debate in the Swedish Dyet on the 20th of last Month, it was carried upon the Question, to send Orders to their Plenipotentiaries at Abo to conclude their Conference there in six Days, and return Home immediately, if Peace cannot be had on moderate Terms.

The last Letter from Harburgh say, that the Czarina has offered such Terms to the Swedes as are like to be accepted, and that Things are thereupon like to take a new Turn in the Dyet.

Yesterday seventy three Chests of Silver, taken on board the Pierre Jerome by his Majesty's Ship the Squirrel, was brought to the Bank, guarded by the Officers and Crew of the said ship. As the Treasure found in this Prize is the most to the Captors that has been taken this War, and they have met with speedy Justice in condemning her, the Sailors at ended the Money with Musick and Colours flying, and the Officers gave a handsome Entertainment at the Fountain behind the Exchange.

The King has been pleased to constitute and appoint David Wooley Esquire, to be Governor of Yarmouth-Castle, in the Isle of Wight, in the Room of John Leigh Esquire.

We hear that his Royal Highness the Duke of Cumberland will go with his Majesty to Flanders, and Preparations are making accordingly.

The Equipage of the Right Honourable the Lord Carteret, Secretary of State to his Majesty, is getting in Readiness with great Expedition, he being to attend his Majesty abroad.

We hear from Genoa, that Admiral Mathews continues to make great Preparations for an important Expedition; and that he has intimated some Dispute at receiving the Marks of Regard from the Republick, since his having had the Command of the British Fleet in the Mediterranean, the Senate have appointed the Marquis Viale, to go to him with a Compliment; and at the same Time entreat him to give Orders, that the Genoese Vessels may not be stopp'd by the English Men of War.

Her Hungarian Majesty has given Orders for seizing all the Estates and Effects in her Dominions of the Cardinals Aberoni, Valeni, and Aldrovandi.

April 16. The last Advices from Berlin intimate, that we may shortly expect great News from thence, but they don't say of what Kind.

Thursday last the Caprain, a 70-Gun ship, new rebuilt was launch'd at Woolwich, and the Command given to Captain Byng, Brother to the Lord Viscount Torrington. There were several Persons of Distinction on board, and it was reckon'd as fine a Launch as ever was seen.

CHARLES-TOWN, July 11.

On Friday last we had several violent Claps of Thunder, which has done considerable Damage to the Independant-Meeting House, and to the House of Mr. Osmond in this Town, also to that of Mr. Hunt about a Mile out of Town.

The same Day, in a sudden Squall of Wind, a Boat in the River overset and sunk; one of the Men in her (Mr. Wm. Dandridge) was drowned.

John J. Weston well known in this Town, was likewise drowned the same Day, near Sullivan's Island.
